

Welcome to the Congress of Neurological Surgeons NeuroWiki

Welcome to the launch of the CNS NeuroWiki, a wiki branch of the CNS University of Neurosurgery. A wiki is a collaborative technology for organizing information. Visitors can add, remove, and edit content. Like all other wikis, the CNS University's NeuroWiki allows linking among any number of pages. This ease of interaction and operation will engender collaborative authoring. Wikipedia, an online encyclopedia, is probably the best known wiki. [Learn more about the NeuroWiki](#) or just [get started!](#)
